Re: International Harvester site, Chicago, Illinois

Dear Ms. Womack:

This letter provides to you a copy of the following draft workplan document: June 1996 Site Work Plan (3 volumes) for the Former West Pullman Works Site, 1015 West 120th Street, Chicago.

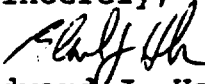

This is a request that you please place these three volumes with the other documents related to the Dutch Boy and International Harvester sites which are in the information repository located at the Edward White school in the office area of the school gymnasium. Also, as you are aware, a copy of the final work plan for the Dutch Boy site has been forwarded to you on June 11, 1996. It is our understanding that a visitor can view all of the documents placed at the Edward White School repository both during school hours and after school hours up to about 9:00 pm generally every weeknight when the gym is open, and if someone visits during or after school hours, they would go to the front office or gym and talk to the engineering staff of the school to review the full repository.

Any comments to these plans can be forwarded directly to me here at USEPA, or directly to the following person who is responsible for having generated these documents:

Edith Ardiente
Director, Environmental Affairs
Navistar International
455 North Cityfront Plaza Drive
Chicago IL 60611

Thank you for your efforts in making these documents available to the public for review. Please feel free to contact me at (312) 353-9228 if you have any questions or need any other information regarding this letter or these documents.

Sincerely,

Edward J. Hanlon
